Module: Premium Full Image

Header: ROG STRIX G15

Body: The ROG Strix G15 embodies streamlined design, offering a formidable core experience for serious gaming and multitasking on Windows 10 Home. Featuring up to the latest AMD Ryzen 5000 CPU and a NVIDIA GeForce RTX GPU, it offers high-FPS power that takes full advantage of up to a blazing fast display

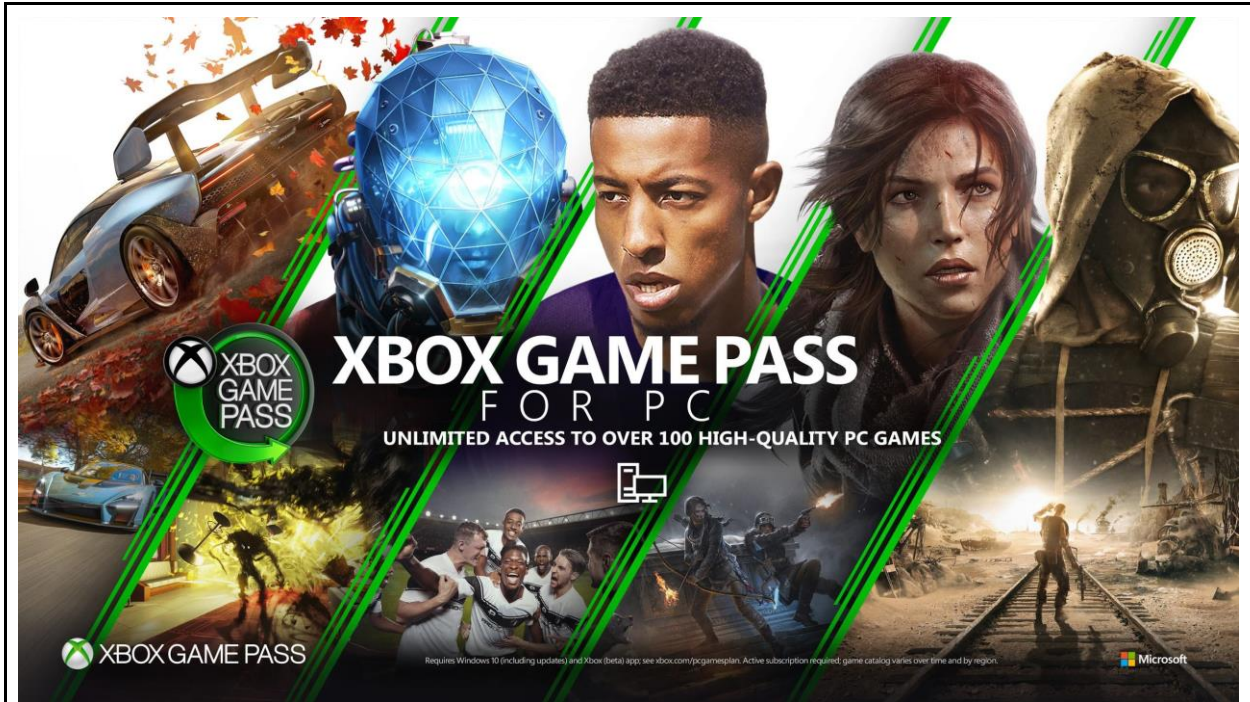

Header: Power Up with the Next Generation

Body: An ultrafast 300Hz refresh rate makes the flow of fast-paced action look impeccably smooth, while the 3ms grey-to-grey response time minimizes motion blur for precision target tracking. The NVIDIA GeForce RTX™ GPU delivers smooth frame rates, while the AMD Ryzen™ 5000 series CPU powers through heavy lifting or multitasking

Header: Streamlined Design

Body: Play anywhere on a chassis that's up to 7% smaller and more portable than previous generations. Illuminate your environment with Aura Sync accents that shine from the metallic ROG logo, across the backlit keyboard, to the wraparound light bar.

Header: 30-days of Xbox Game Pass for PC on Us

Body: Unlimited access to over 100 high-quality PC games on Windows 10. One month subscription to Game Pass that's included with purchase.

* Active subscription required; continues until cancelled; game catalog varies over time. Requires Windows 10; see details at xbox.com/pcgamesplan.

Header: ROG Intelligent Cooling

Body: ROG's Intelligent Cooling philosophy mixes the right features and system settings to ensure the best experience. Performance is boosted with cutting-edge enhancements like liquid metal compound on the CPU and a well-ventilated exterior that keeps noise levels lower than the last generation.

Header: Reliable Wi-Fi

Body: Ultrafast Wi-Fi 6 (802.11ax) lets you game reliably at LAN speeds wherever compatible connections are available. ROG RangeBoost enhances reception by evaluating the signal strength of four internal antennas and then picking the best pair to use for your location, minimizing dead spots and increasing range by up to 30%.

Header: Comprehensive Connectivity

Body: Hook up next-gen devices at Gen 2 speeds via the USB 3.2 Type-C™ with DisplayPort™ 1.4 and USB Power Delivery. Three Type-A USB 3.2 Gen 1 ports are ready for your favorite gaming gear, while HDMI 2.0b lets you connect a 4K monitor or TV at up to 60Hz.
