

4K ULTRAHD

The Hisense A6 series adds more picture quality enhancements and an operating system upgrade for the perfect 4K fit for consumers looking for options and affordability. Adding FilmMaker Mode reproduces movie content the way the director originally intended and adding Game Mode Plus with variable refresh rate at 4K 60Hz and auto low latency mode keeps the A6 series at pace with next-generation game consoles. The A6 series also maintains DTS Virtual:X audio technology and Chromecast built-in for fuller audio and video casting capabilities. These advancements are available in all sizes and position the A6 series as the “go-to” Hisense television for the perfect 4K fit.

Google TV

The entertainment you love. With a little help from Google. Google TV brings together movies, shows, live TV and more from across your apps and subscriptions and organizes them just for you. Discover new things to watch with recommendations based on what you watch and what interests you, from across your subscriptions and content available to you. Ask Google to find movies and shows, answer questions, control smart home devices, and more, with your voice. And with the Google TV app you can watch anywhere, anytime.

4K Ultra High Definition

4K resolution improves upon Full High Definition with 3840 x 2160 pixels. More pixels on the screen produces a more clear and succinct picture making content look more realistic and true-to-life. Combined with Hisense’s AI UHD Upscaler, non-4K content will get enhanced to near-4K quality.

Google TV

The entertainment you love. With a little help from Google. Google TV brings together movies, shows, live TV and more from across your apps and subscriptions and organizes them just for you.

Dolby Vision® HDR and HDR10*

Innovative visual technology, Dolby Vision, brings the characters to life with darker darks, brighter brights, and a remarkable color range you can’t get anywhere else. HDR10 is an HDR format that delivers HDR content via compatible over-the-air signals.

Game Mode Plus

Game Mode Plus is a collection of technologies that come together to create a dynamic gaming experience. A 60Hz panel, variable refresh rate, and auto low latency mode makes sure that the television can handle the rigors of next-generation gaming consoles.

Dolby Vision Game

This television can support Dolby Vision for gaming at 4k 60Hz.

Sports Mode

With sports mode’s pre-set settings, the television automatically adjusts itself to optimize sports content. Motion is smoother and color is adjusted for the best sports experience the television is capable of.

Google Assistant

Press the Google Assistant button on your remote to do more on your TV with your voice. Ask Google to search for the latest blockbuster, stream shows, or open multiplayer games. Have it dim the lights by connecting smart home devices. Manage tasks and see your calendar. Or ask it questions and see the answers on your TV.

Chromecast Built-in

Go from your phone, tablet, or laptop to your TV in an instant. With Chromecast built-in, you can cast all your favorite movies, shows, apps, games, and more directly to your TV.

DTS® Virtual: X™

This scalable and versatile advanced post processing package creates immersive audio by virtualizing height content over traditional stereos.

Voice Remote

With the voice remote, you can open apps, adjust the volume, and search for your favorite shows using your voice. Just press the Google Assistant button on your remote to talk to Google.

Bluetooth® Connectivity

Wirelessly connect a compatible soundbar, headphones or stereo components to your TV. Then turn it up. Sounds like your favourite playlists sound better.

Club Exclusive

As an exclusive for club members, Hisense includes a 3-year manufacturer’s warranty and 6-foot HDMI cable.

*Google Assistant-compatible products required to use voice commands

*HDR viewing experience will vary by model, content availability and internet connection.
