

43LM5700PUA

HDR Smart LED FHD 1080p TV

43"

* Class size: See below for details.

- **Quad Core Processor**
- **Active HDR**
- **Google Home and Alexa Compatible**

*Image not final subject to change

DESCRIPTION

From streaming to sports to gaming, the HD 1080p display offers a crisp, clear picture that brings dynamic color. Its hard-working quad-core processor improves images, action and color, while the resolution upscaler enhances picture quality and Active HDR adjust picture in each scene. Plus, easily access streaming content through webOS and control your TV with devices that have the Google Assistant* and Alexa* built-in.

*Google Home and Alexa devices sold separately. Service limited to certain languages. Some features require 3rd party service subscriptions.

KEY FEATURES

Quad Core Processor

The hard-working quad-core processor improves images, action and color, reducing distracting video noise and motion blur, enhancing sharpness and portraying accurate colors.

Active HDR

Discover every detail with scene-by-scene picture adjustment. LG's advanced tone mapping technology makes Active HDR possible, with support for HDR10 and HLG formats.

*Active HDR supports only HDR10/HLG. HDR10 via HDMI/Streaming/USB and HLG via Streaming/USB.

Google Home and Alexa Compatible

Use your voice as your remote control. LG FHD TVs work with devices that have the Google Assistant* and Alexa* built-in, so you can control TV settings, play, pause or adjust volume through voice control.

*Google Home and Alexa devices sold separately. Service limited to certain languages. Some features require 3rd party service subscriptions.
